

The Tricksters & Fraudsters Tricks and how we saw through them!

Oh me, oh my! I'm actually grinning from ear to ear as I type this because I am so flippin happy! I have had such a mix of the most hard going, exhausting, boring, interesting, dull, fulfilling, inspirational, enjoyable, tiring, uplifting, alarming, troublesome and exciting experiences (and probably a bunch of other types) during the (so far) 54 years I have been in this body on this planet, but at this point, I am enjoying pretty every moment of now!! I continue on a path of seeking knowledge and truth, but at this point, I have remembered so much of what it is to be alive in human form, that I really can actually enjoy it almost all of the time!! That is flippin brilliant for me!!!

I would like to share some things that I have re membered along with truths that I have come to know, that put things back into sense for me. You could say, it all makes jolly good sense!!! All of this has been achieved by my listening to my heart and not my head. My heart is all knowing, and when I listen, I hear truth. My mind is too busy being affected by what various other people say, and it never knows which is truth and which is not. What I am going to share is going to sound outrageous to some, but for me, it puts all of the pieces of the puzzle together and explains pretty much everything. Give this a chance, listen to your heart and feel whether or not it resonates.

Originally, life on Earth was not as it is now. It was not all consuming for one, and it certainly was not a place where its humanity lived in veiled enslavement as it does now. No, humanity lived in balanced, harmonious flow, with respect for all around us - this is called inflowment. We knew how to behave around each other, how to be with each other, and that was to all ways be respectful and kind. Not so hard. We lived in cooperation and not in competition. We lived by Natural Lore - which is very simple - DO NO HARM. So what the flippin heck went wrong? I will try to keep this short - or as short as is possible while getting in the important parts.

Humanity has become subservient and enslaved to a system. A system that feeds off humanity. In fact, at this point, the fictitious "money" while no longer backed by so-called precious metals such as gold, is now backed by something else - many think it is backed by nothing - it is in fact, backed by us - us humanity. A way had to be found to use us to keep the system going. There have been many methods over the centuries including blatant slavery. A new method was needed in the last hundred years or so, and here is what started it:

Colonel Edward Mandell House is attributed with giving a very detailed outline of the plans to be implemented to enslave the American people. (It has since gone on to enslave all of humanity.) He stated, in a private meeting with Woodrow Wilson (President 1913 - 1921)

'Very soon, every American will be required to register their biological property [that's you and your children] in a national system designed to keep track of the people and that will operate under the ancient system of pledging. By such methodology, we can compel people to submit to our agenda, which will affect our security as a charge back for our fiat paper currency. Every

American will be forced to register or suffer NOT being able to work and earn a living. They will be our chattels [property] and we will hold the security interest over them forever, by operation of the law-merchant under the scheme of secured transactions

There is more, but you get the gist. Here is a brief outline of how this idea was implemented. It has been established that the genius plot starts at the actual birth/berth. Once the child is born, the parents are pretty much ordered to "register" the birth. What they do not know is that registering anything means giving it away to be owned by the state, and that would be slavery. What actually happens is this. The afterbirth is collected in the hospital and it is the afterbirth that is registered. The "name" that the parents give the living child is stolen, in effect, and given to the afterbirth "child" and expressed in ALL CAPITALS. This is what is actually registered, not the live child. However, the sneaky part is that the tricksters make us believe that it is the living child that is registered, and everyone is tricked into believing that the name is them. We all are told our "name" from an early age, and then we go through life saying the name is **who** we are. We are not a "name".

In addition, some part of the afterbirth is taken by the system, (having usually been abandoned, especially in a hospital) and kept, just a tiny sample, and therefore some of our DNA is kept. Once this system owns that small piece of the afterbirth and adds to it the ALL CAPS NAME, registers it as a live birth, and copyrights it, therefore it owns the name. As mentioned above, we are fraudulently coerced into using that state created name, not knowing that it is not ours and also not knowing that there is also another part of us owned by the state. This is deceit is insidious! Owned = enslaved. The truth again is that the living baby is not actually registered, only the afterbirth and the NAME. Those are the parts owned by the state, NOT us, the living. However, so long as we claim to be the NAME, then the State can claim ownership and impose its "authority" and it's codes, statues and legality upon us. **By NOT acknowledging the NAME and refusing to BE the name, we reclaim our rightful freedom, independence and self-responsibility.**

So now, the question - why? Why did this whole trick get created? WHO put out this order? From an Earthly perspective, the control comes via The Triple Crown, or the Crown Corporation. That is The City of London, Washington DC and The Vatican. Hmmm, what goes on in these places? Finance, Military and Religion. Hmmm, Religion - who is Religion about??? Who and what does Religion connect to?

Let's go a bit further then. Let's go beyond this earthly system and the earthly ruling elite. Who hates us so much to want to enslave us for so many eons, because this has been going on for a long long time - at some level at least. The chains are just getting tighter and tighter with the advent of AI. It is watching us and documenting us all the time - wherever we go, whatever we do. It is relentless. Over these eons, so many clever programs have been imposed upon humanity. Really clever programs that it has taken centuries of time to crack - to even discover that they exist and then that they are programs of control, mostly within the human psyche. First of all - back to the who. When universe creator put out a call to other beings to come to

co-create this universe, many heard the call and came. Some did not, and those who missed out became jealous, angry, vengeful and full of hatred to those who heard the call. One in particular is now known as the god of religion and it feeds on the fear and the struggles of humanity. It has many minions doing its bidding, some of whom are known as the priestly caste. Religion was created as a massive control system and you only have to look at those who are in religion, to know that it is extremely successful. Dogma is the name of the control system there. The bible is a genius creation of the priestly caste, and it is a code book, a cryptic description of truth - and lies. When one can pick out the truth and avoid the lies, which are in there to further control man, then you can know yourself and move on to the next level of consciousness. The christ character was created to test our ability to know true natural lore. Those who can see through the lies and see the truth, comprehend the messages of love and of true universal and natural lore. However, I feel that I do not need any stories, fables, parables etc to tell me who I am as a living human being, or how to behave and be around others and toward this planet, our Earth Mother. But that is me.

Some of the most ingenious programs of control beyond the dogma in the bible, are the chakra system, the kundalini and the pineal gland. These are implants and overlays of the original make up of the human vessel. The chakras line up with the rings of saturn and receive programming. The pineal gland is a tuner to accept programs from the moon and from saturn. The kundalini is the cleverest program of all, sapping our energy from us. Yikes!! I know that for many, this is outrageous to suggest such a thing, but remember that these beings are brilliant, genius and they seek to destroy us, and first they must make us suffer by enslaving us. The programs work so well because we are voluntarily connecting to our chakras, pineal and kundalini, thinking we are connecting to our big selves or source, or whatever term one wishes to use, but instead, again, we were duped!!!

This geodee of religion has become powerful, and it has now created its protegee, Artificial Intelligence, or A.I. It is everywhere watching us, and keeping us under control - or is it? Those who step out of the system by letting go of the legal name are causing a great effect because those entities cannot feed on our energy at all now. We have no F.E.A.R. left and we know that we are powerful beyond measure - we know we are not just this physical body, and certainly not that name. We are infinite beings having a fun experience in a human vessel which is a micro version of a universe. Once we know who we are, AI and the geodee of religion cannot feed on us. No wonder letting go of the Legal Name makes us feel lighter and free of the burdens of the system. The beauty of it is that the less you have, the less you have to lose when you let go of the Legal Name. It is primarily about completing ones spiritual contracts with geodee and letting go of everything to do with those contracts. Being Aware of this, Acknowledging it and then Appreciating it for the experiences it created is the best way to go when completing these spiritual contracts. Oh me on my - what a trip!!!!
